TROOPS ORDERED OFF NIGHT TO REMEMBER

Negro Soldiers Will Take Leave of Brownsville.

Population of Two Cities Will Not Soon Forget It.

OUTLINE OF PENROSE

SCENES AT SANTIAGO

Claims That the Enlisted Blacks Had Been Subjected to Indignities, but Admits Some Shooting Was Done.

Port, a Portion of Valparaiso, Had Three Hundred Fatalities, and at One City Many Corpses Are Not Interred.

Washington, Aug. 21.—Orders were issued Monday by the military secretary, Major General E. Alsworth, for the transfer of the negro troops from Fort Brown, Tex., where there has been serious trouble between citizens and soldiers, to Fort Ringgold, Tex., which is about 100 miles above Fort Brown, and is also on the Rio Grande. One company of the Twenty-sixth infantry is ordered to Fort Brown to take the place of the negro troops. The company ordered to Fort Brown is made up of white men.

This shifting about of troops was made subsequent to a report from Maj. C. W. Penrose on the situation at Fort Brown, and after an appeal by Senator Culberson to President Roosevelt.

In his report Major Penrose says he was persuaded that the killing of one citizen in Brownsville and the wounding of another were the work of soldiers, although he has been unable as yet to discover who the guilty men are.

Of the attitude of the citizens of Brownsville toward the negro soldiers Major Penrose says: "That enlisted men have been subjected to indignities since their arrival here there can be no doubt, and this has caused a good deal of feeling among them. The one case to which it is attributed this outbreak will be made the subject of an official report as soon as John W. Vann, the collector of customs, returns to the city."

Major Penrose then outlined briefly the case in question.

"Privates Newton and Lipscomb were passing along a walk on Aug. 5 where some women were standing, engaged in conversation with a man named Tate, who is employed in the customs office. The negro privates walked single file between the women and fence. Tate knocked Newton down with the butt of a revolver, and is reported to have said:

"I'll teach you to get on the sidewalk when there is a party of ladies on the walk."

"When Newton arose, Tate is said to have covered him with the revolver, commanding: 'Damn you, leave, or I will blow your brains out.'"

This account of the affair is corroborated by Lipscomb. Major Penrose sought an official investigation of the matter, but as Mr. Mann, the collector of customs, is out of the city, it has been impossible to have the affair looked into.

On Aug. 13 Major Penrose says a Mr. Evans and Dr. Combe, mayor of Brownsville, called on him. Mr. Evans said his wife was seized while entering her home by a negro, supposed to be a soldier, as he wore a khaki uniform. Mrs. Evans was unable to identify the man, but she and her husband both complained that the soldiers gathered near their home and annoyed them. That evening Major Penrose made an attempt to get all the soldiers into the reservation early. All but two men, who were out on passes, gathered into the post, but shortly after midnight the engagement which resulted so disastrously took place, and the whole garrison was awakened by a fusillade. As soon as the shooting ceased, and it seemed safe to make an investigation, all but two soldiers answered roll call, and the rifles were all in place, and showed no mark which indicated that they had been fired. Cartidges and shells made at government arsenals were found near where the shooting took place, and Major Penrose expresses the opinion that eight or nine soldiers, who had keys to the gun racks got their weapons, slipped out of the post and engaged in the battle with the citizens and managed to clean their guns, replace them in the racks and regain their places in the excitement which prevailed.

TWO ARRESTED.

Husband and His Brother Charged With Drowning Miss Jeffries.

Little Rock, Aug. 21.—Clarence H. and William Jeffries on charge of drowning the wife of the former. Mrs. Jeffries lost her life a few days ago in a lake near here. The brothers stated that she fell from a log while fishing and drowned, and Williams Jeffries almost his life in attempting to save her. The couple are said to have had numerous quarrels, and a lady neighbor is said to have said Mrs. Jeffries told her that her husband had once tried to drive his wife. C. H. Kyle, Mrs. Jeffries' brother, started the investigation leading to the arrests. The Jeffries refuse to make any statement.

In Pursuit of Stensland.

Denison, Aug. 21.—A Chicago detective of prominence passed through here en route to Mexico in pursuit of Paul O. Stensland, president of the defunct Milwaukee Avenue bank of Chicago.

Santiago, Aug. 21.—Only now can the seriousness of the catastrophe be appreciated. The greater part of the modern houses here are unsafe for habitation and the authorities have organized special corps to pull down tottering buildings.

The night of Aug. 16 was rendered dreadful by flashing lightning and pouring rain, electric cables and wires snapping as the result of constant strong earth shocks, causing the greatest consternation, which was heightened by the pealing of fire bells announcing the breaking out of fires in various quarters of the city. Each earth shock was followed by walls and prayers from people who were kneeling in rain and mud.

The first great shock lasted four minutes and fifty seconds. Such a long shock had never occurred before in the memory of any inhabitant of Santiago. It caused bells of churches to ring, pictures swung out from walls and there was a great heaving motion of the ground. Experts say the only thing which saved Santiago from complete ruin was that the motion was circular.

The principal shock was from Valparaiso to Santiago and Meripilla, with its center at Limache. The last two mentioned towns were devastated and also Quillota and Llaillai.

A dispatch received here from Limache says that 100 bodies there remain unburied; that the authorities up to the present time have only been able to bury 200. The task of the authorities in the present situation has become easier on account of the fact that telegraph and telephone communication have been re-established between Valparaiso and Santiago, enabling the governor of Valparaiso to consult at length with the authorities here.

Nothing definite appears to be known as to the number of people who lost their lives as the result of the earthquake and fires at Valparaiso. The authorities there only mention having taken sixty bodies from the ruins, though they add that the number injured is very great. People who have arrived here from Valparaiso, however, confirm the alarming results of the extent of the catastrophe, but by energetic measures maintain order and prevent pillaging. All persons caught committing robberies are shot on the spot. People arriving here estimate that 82 per cent of the buildings in the remote districts have been destroyed by fire.

All reports agree in saying that Alembra and the southern districts of Valparaiso suffered the most severely. According to some of the reports Valparaiso may be said to have been totally destroyed, it being asserted that nearly all houses which remained standing have been so shaken that they must be pulled down. Travelers who arrived here said that more than 300 persons were killed in that part of Valparaiso known as the Por and that 800 were injured there but it is impossible to verify this statement.

The majority of the inhabitants of Valparaiso are camped in the high hills surrounding that city, in parks and main thoroughfares, or have sought refuge on board vessels at anchor in the bay. Martial law continues there.

An ambulance train left here for Valparaiso with a large supply of food, medicines, etc., and a detachment of medical students, who volunteered to assist the earthquake sufferers. Supplies also have been sent other towns.

As the correspondent closed his dispatch a further slight earthquake made the building in which he was writing tremble to its foundations.

President Roosevelt's message of sympathy with the Chilean people was most gratefully received by the government and people and messages of sincere thanks cabled to Washington by the Chilean president.

The Chilean minister of the interior reports the railroad from Tiltill to Baluso is working regularly, but that from Tiltill to Santiago the line is not working. At Colina, Batus, Police and Tiltill railroad stations, stores and dwellings have all been destroyed.

The president of Chile will order immediate construction of provisional buildings of wood and zinc in order to shelter the homeless. Military engineers are now repairing railroads and telegraph lines. The authorities at Valparaiso are organizing distributing centers, where food and medicine will be served to earthquake sufferers. The latter are displaying exemplary patriotism and courage.

Fatal Backing Into Train.

Charlotte, Mich., Aug. 21.—By a locomotive backing into a train three Italian laborers were killed, three will die and fifteen others were injured. A rush was made for the engineer, but he escaped on his engine.

KEEPING THE WORLD'S PEACE.

Capt. Richmond Pearson Hobson
insists that the United States
should have the most powerful
navy in the world. It is doubtful
if the Captain will be able to con-
vince Eugene Hale, Joseph G.
Cannon, T. E. Burton and others
who lead in Solonism on Capitol
Hill that it is the mission of this
Republic to preserve the peace
among Nations.

In some quarters it is freely pre-
dicted that this country and Japan
will some day fight over the Phil-
ippine archipelago. It may be that
the child is born in the Mississippi
Valley whose blood, shed in battle
is to crimson the Yellow Sea,
though it would be a great mis-
fortune and a great act of folly to
send our people to death in such a
quarrel. Better withdraw from the
Philippines, that have already
drawn so much on the public purse
and on the public conscience.

As for Japan she hasn't the price
of a war with America, and if she
had the price England would never
permit her to engage in the war.
Not that England cares so much for
us, but that England would lose
a pile of money by such a war
whatever the issue of it.

And so we say that there is not
the slightest danger of a war be-
tween the United States and Japan
until Japan is ready to defy Eng-
land, too, in such a quarrel; and
that will not be tomorrow. It will
not be within forty years. It will
not be until the Chinamen shall
be as warlike as the Jap. This
generation has no concern with that.
When that day shall come, it is not
unlikely that war will be among
the lost arts.

Sufficient unto the day is the
evil thereof.—Washington Post.

LOUISIANA PRIMARIES.

Results of Election For Democratic
Congressional Nominee.

New Orleans, Aug. 21.—General
Adolph Meyer was renominated by the
Democrats of the First congressional
district, Broussard in the Third, Wat-
kins in the Fourth, Ransdell in the
Fifth, Pujol in the Seventh.

Congressman Roberts is engaged in
an exciting primary with Judge George
K. Fayrot in the Sixth, to be decided
on Sept. 6.

For not having paid his poll tax in
Second district, congressional com-
mittee ruled Judge Bossier ineligible, and
made Judge Davey the Democratic
nominee. Six of the present delega-
tion will therefore be returned to con-
gress, only Colonel Robertson now be-
ing in doubt.

ATTACKED AT DEPOT.

Two White Men Compel Lady to Give
Up Her Purse.

Waco, Aug. 21.—On arriving from
Rosebud, Falls county, accompanied
by her three little daughters, Mrs.
Renfro, en route to join her husband
at Altus, Okla., where he is engaged
in the cotton seed oil business, was
attacked at the Aransas depot by two
white men. With her youngest child
in her arms Mrs. Renfro was walk-
ing along the platform when the men
rushed upon her. One of them cut
her purse, which she was holding in
her hand, off at the handle. Valuable
papers and \$40 in cash were stolen.

WHITE REPUBLICANS.

There Is Considerable Talk at Musko-
gee of Organizing Party.

Muskogee, Aug. 21.—The white Re-
publicans of the Tenth recording dis-
trict, and especially Muskogee, are
talking of organizing a white Repub-
lican party. A call has been issued
for a meeting of the United Musko-
gee Republican club, which is a white
organization, to discuss matters of im-
portance to the party, and it is thought
at this meeting a plan of action will
be mapped out and an ultimatum will
be served on the negroes to the effect
that they can either support the tick-
et of white men or they can go to the
Democratic party, or otherwise.

STAYED IN SLEEPER.

W. H. Ellis, Negro Colonizer, Refused
to Get Out at Laredo.

Laredo, Aug. 21.—W. H. Ellis, a ne-
gro colonizer, arrived here from the
City of Mexico in a Pullman sleeper.
He was informed that under the laws
of Texas he could not ride in a sleep-
er, and that himself and baggage
would have to be transferred to that
portion of a coach set apart for ne-
groes. Ellis refused to get off, and
was still in the sleeper when the train
left here.

SHOT TO DEATH.

Negro Taken to the Scene by the
Father of His Victim.

Columbia, S. C., Aug. 21.—Bob Eth-
eridge, the negro who attempted to
criminally assault the seven-year-old
daughter of T. H. West of the Mount
Willing section of Saluda
county, was taken by Mr. West to the
scene of the crime and shot to death.
The negro took the little girl to her
father's barn. She was horribly
bruised, but the brute failed to ac-
complish his purpose. There are
some hopes for her recovery.

BIGGER AND BETTER THAN EVER.

Intimations of What the Coming State Fair Will be Like.

Dallas, Texas, Aug. 21.—The State fair people are putting into the forthcoming show, October 13 to October 28, \$100,000 more than they have ever before invested in an intertainment, and all the departments will be arranged on a correspondingly greater scale. Exhibits and attractions will extend all the way around the race track. The very best attractions to be had are being engaged, regardless of cost. Some very strong features will shortly be announced for the auditorium. The Pike will be made up of the very pick and choice amusement successes of the year in the East and North. The racing department will have all the elements of interest of any of the great turf meeting of the country. The purses and stakes aggregate nearly \$50,000. Each day during the thirteen week days of the carnival, there will be from five to seven running races, and from two to four harness events, in which some of the greatest horses in the United States and Canada will try for the money.

ISLAND DESTROYED.

Made Famous by De Foe In Adventures of Robinson Crusoe.

New York, Aug. 21.—A report reached this city Monday that the South American earthquake destroyed the island of Juan Fernandez off the Chilean coast. It belonged to Chile, and on it were a penal settlement and a fort.

This is the island made famous by Daniel De Foe as the scene of the thrilling adventures of Robinson Crusoe.

GIRL'S AWFUL FATE.

Miss of Sixteen Years Outraged and Strangled to Death.

Raleigh, N. C., Aug. 22.—The body of the sixteen-year-old daughter of George Waddell was found near Fremont, his home. While on her way to visit a girl friend an unknown man outraged and strangled her.

BOUNDARY DEFINING.

Governor Frantz Will Soon Issue a Proclamation on Subject.

Guthrie, Aug. 21.—Governor Frantz will soon issue a proclamation defining the boundaries of the constitutional convention and declaring that the election of delegates shall be on Nov. 6, under the election laws of Oklahoma.

Startling Statistics.

St. Petersburg, Aug. 21.—Last week's statistics show that fifty-eight officials were murdered and forty-three wounded in Russia proper; that no bomb despots were discovered; that six safes were rifled of money and sixty-three persons were robbed.

CLEVER ANSWERS.

Cases Where They Won Promotion in Civil and Military Life.

A long list might be given of men who have owed their advancement in life to a clever answer given at the right moment. One of Napoleon's veterans, who survived his master many years, was wont to recount with great glee how he once picked up the emperor's cocked hat at a review, when the latter, without noticing that he was a private, said carelessly, "Thank you, captain." "In what regiment, sire?" instantly inquired the quick-witted soldier. Napoleon, perceiving his mistake, answered with a smile, "In my guards, for I see you know how to be prompt." The newly made officer received his commission next morning.

A somewhat similar anecdote is related of Marshal Suvaroff, who when receiving a dispatch from the hands of a Russian sergeant who had greatly distinguished himself on the Danube attempted to confuse the messenger by a series of whimsical questions, but found him fully equal to the occasion. "How many fish are there in the sea?" asked Suvaroff. "All that are not caught yet," was the answer. "How far is it to the moon?" "Two of your excellency's forced marches." "What would you do if you saw your men giving way in battle?" "I would tell them that there was plenty of whiskey behind the enemy's line." Baffled at all points, the marshal ended with, "What is the difference between your colonel and myself?" "My colonel cannot make me a lieutenant, but your excellency has only to say the word." "I say it now," answered Suvaroff, "and a right good officer you will be."

A WOOD SAWING FLY.

The Tool With Which It Makes a Cradle For Its Young.

It is marvelous how many of the tiny creatures in the insect world conceal and preserve their eggs. Some will deposit them in extraordinary places; others will insert them in the skins of living animals; others, again, deposit their eggs where the young grub, after coming from the egg, finds food close at hand.

Among these last mentioned are insects who bestow great labor in the cradle of their young. The place they select is a hard part of a leaf or the woody branch of a tree. In this they saw out a hole large enough to contain their eggs, whence their name, saw flies. For this purpose they are provided with an ovipositor of peculiar construction. It consists of two long pieces closing like a sheath over a third.

In the tenthredo this third piece contains two little saws, each of which has been compared to the tenon saw used by the cabinetmakers. The tenon saw is single, but that of the tenthredo is double, consisting of two distinct saws. The insect in using them throws out one saw and while it is returning pushes off the other.

This alternate motion is continued until the cut is made, when the two saws, receding from each other, conduct the egg between them into its place. Not only is the edge of the saw notched into teeth, but on every tooth a number of smaller teeth appear.

ONE MINUTE

One Minute Cough Cure gives relief in one minute, because it kills the microbe which tickles the mucous membrane, causing the cough, and at the same time clears the phlegm, draws out the inflammation and heals and soothes the affected parts. One Minute Cough Cure strengthens the lungs, wards off pneumonia and is a harmless and never failing cure in all curable cases of Coughs, Colds and Croup.

Our little girl was unconscious from strangulation during a sudden and terrible attack of croup. I quickly secured a bottle of One Minute Cough Cure and gave her three doses half an hour apart. The croup was mastered and our little darling speedily recovered. I cannot praise One Minute Cough Cure too much for what it has done in our family.—A. L. Spafford, Postmaster, Chester, Mich.

KERMIT'S LONG RIDE.

Son of President Roosevelt is Making a Lengthy Journey.

Deadwood, S. D., Aug. 21.—Kermit Roosevelt, son of the president, left Sunday on a long overland horseback trip to the ranch on which his father first started his wild west career, located near Medora, N. D. Regular cow ponies are being used and a round-up outfit, provision wagon with camping equipage follows the party.

Captain Seth Bullock has charge of the outfit, which consists of Bullock's son, young Roosevelt and several others, including Roosevelt's eastern friend, John Heard.

At Medora Kermit met many of his father's old friends—men who rode with him during the stirring days of the cattle rustler. The trip will consume a week or ten days and is purely a camping trip, no hunting being indulged in, although some fishing is being done.

TWO THOUSAND DEAD.

Report to This Effect Received by a Paper at Buenos Ayres.

Buenos Ayres, Aug. 21.—The Nation publishes a special dispatch from Lapaz, Bolivia, announcing that 2,000 persons lost their lives as the result of the earthquake shocks and fires at Valparaiso; that 170 deaths from the same causes occurred at Lima, Peru, forty at Quillota, thirty-five at Conchilli, eleven at Petora, ninety at La Placilla and six at Lacaleri.

On Sunday, Aug. 19, there were strong convulsions at Valparaiso which produced fear of a panic.

A dispatch from Santiago announces that President Rieco is proceeding to Valparaiso, accompanied by ministers of interior and war, to supervise relief work.

STUCK FAST.

All Efforts to Pull Off Manchuria Have Failed.

Honolulu, Aug. 21.—All efforts so far have failed to pull off the Pacific Mail steamer Manchuria, stranded off Rabbit island, on the shore of Oahu, and a cable may be sent asking for tugs from San Francisco. At high tide an attempt will be made to haul the liner off the reef. Inter island steamers which acted as towboats, are now arriving here with Asiatic passengers from Manchuria, and many passengers are coming in overland. The Manchuria lies unmoved. There is immediate danger of her breaking up, but it is believed it will be impossible to get her from her position. It is reported the steamer is leaking and her pumps are at work.

SIX SQUARE BLOCKS.

Quarantine Line Embraces That Much of New Iberia.

New Iberia, La., Aug. 21.—The quarantine line was thrown about a district comprising six square blocks in which the patient suffering from yellow fever is located. Every house in the district has been fumigated. Additional disinfectors came from New Orleans and five gangs are working in the neighborhood of the quarantine section. President Irion went to Jeanerette, adjoining the town, to assure the people there is no danger from the New Iberia case. Confidence here is complete. The patient is expected to fully recover in a few days.

STABBED THROUGH HEART.

Brother of His Wife, Whom He Was Beating Did the Deed.

New Orleans, Aug. 21.—William Ebarra, twenty-seven years old, a saloonkeeper, was stabbed through the heart and killed by his brother-in-law, John L. Cook, thirty years old. Ebarra is said to have been beating his wife, and when she appealed to her brother for protection a row between the two resulted in the fatal stabbing of the former.

ANOTHER HEAVY SHOCK.

Town Two Miles From Valparaiso Reported Destroyed.

Lima, Peru, Aug. 21.—There was another heavy earthquake shock at Valparaiso Monday night.

According to the latest reports received here from the scene of the earthquake the town of Quillota, situated two miles from Valparaiso and having a population of some 10,000 souls, has been completely destroyed.

At Lima Tuesday morning a slight shock was felt. Huacho was shaken by an earthquake Monday.

REVIEWS AND APPROVES.

President Declares Change of Leadership Would Be Confusing.

New York, Aug. 21.—A letter written by President Roosevelt to Congressman James E. Watson of Rushville, Ind., reviewing and approving of the work of the present congress and declaring that "to change the leadership and organization of the house at this time means to bring confusion upon those who have successfully engaged in the working out of great and comprehensive schemes for the betterment of our social and civic conditions," was made public Monday through the Republican congressional committee. The president also declared that such a change would result in a hurtful oscillation between the extreme radical and the extreme

CONGRESSMAN JAMES E. WATSON OF INDIANA.

reactionary positions. The president said also he hoped congress will enact laws prohibiting combinations and limit hours of labor for railway employees.

Speaking of the tariff, he says it would be folly to change it except where certain schedules might prove detrimental.

He declared the work of the house and leadership of Speaker Cannon has been phenomenal.

The president then enters a review of the work of the congress and the important measures passed by it, measures which he declares are important, not in a partisan sense, but are important because they subserve the welfare of the people as a whole. Of the Panama canal he expresses the opinion that it is the colossal engineering feat of all ages and the credit of acquisition of the canal strip is given to congress.

ISOLATED IN OUTSKIRTS.

Fumigation and Screening Orders of the Day at New Iberia.

New Iberia, La., Aug. 21.—The negro having yellow fever is isolated in the outskirts of town. President Irion of the state board of health and members of his staff are here. Fumigation and screening are in order. There is no excitement and no exodus. Quarantine has not been imposed, but temporary and indiscriminate travel to and from this place is prohibited. Last year there were sixteen cases of yellow fever here, but it was of a very mild type. Doctors think the present case not a recrudescence of the fever of last year. It was probably imported from some point along the Mexican coast.

The patient is recovering. A conference of physicians attended by Dr. Irion pledged full co-operation with the board of health.

Dr. Irion sent a telegram to Health Officer Tabor of Texas asking him to come to New Iberia and look over the situation. Dr. Irion announces there is no occasion for alarm.

It was decided that every house in the city should be fumigated. The New Iberia Board of Trade will provide funds.

AMERICAN EXPELLED.

He Was Charged With Being a Political Provocative Agent.

Odessa, Aug. 21.—An American citizen named Ginson was arrested charged with an alleged political provocative agent. He has been expelled from the country. Ambassador Meyer was informed of the action taken by the Russian authorities, but said he saw no reason to protest against it. Ginson is a Russian Jew, who recently took out citizenship papers.

Explosives Found.

Marseilles, Aug. 21.—The police have discovered papers indicating connection with a band of anarchists of Cirillo, the anarchist arrested here Sunday on a charge of plotting to assassinate President Fallieres. At the residence of the prisoner, who is an Italian, the police also discovered explosives and materials for the manufacture of bombs.

No Action by Arkansas.

Little Rock, Aug. 21.—Arkansas will not quarantine against Louisiana.

NEGROES NOT DESIRED.

Major Blockson Says Brownsville Trouble Was Racial.

Washington, Aug. 21.—General Alsworth has made public the report received from Major Blockson, investigating the trouble between the citizens of Brownsville, Tex., and negro troops stationed at Fort Brown. The report has been sent to President Roosevelt. The major says causes of disturbances are racial. The people did not desire negro troops there and treated them as inferior socially by certain slights and denial of privileges at public bars, etc. The soldiers resented this and there were several individual encounters.

The report says the night of Aug. 13 a party of soldiers made a raid through several squares, firing seventy-five to 150 shots, killing a bartender and dangerously wounding a lieutenant of police. They also fired into several houses, many women and children narrowly escaped being shot. The people are still in a state of great nervous tension and men nearly all carry arms at night. Major Blockson considers it necessary to remove the negro troops at once.

SUGAR PRICES DROP.

For Five Months There Has Been Active Competition.

San Francisco, Aug. 21.—The Examiner says that after five months' competition between the Western Sugar refinery and the California and Hawaiian Sugar Refining company the price of sugar dropped from \$5.15 to \$4.30. In New York the price is \$4.80, while at Missouri river points it is \$5. The \$4.30 price in the local market means the ruling figure for all Pacific Coast states. This figure is so low that southern and other coast beet sugar makers refuse to sell here and are shipping all their output to Missouri river points. Both local refineries are also shipping to same points. Their fight here is controlled by the coast field. It is estimated 85 cents reduction will affect 150,000,000 pounds and that there will be a reduction from 27 to 30 cents per 100 on 350,000,000 pounds.

CAUSES SICKNESS.

Epidemic of Malarial Fever and Mosquitoes Are Numerous.

Denison, Aug. 21.—Continued rain-falls are causing a great deal of sickness, principally fever. Parties from Indian Territory report almost an epidemic of malarial fever. It is said that mosquitoes were never so plentiful. The country is covered with water.

Cotton men report great damage to the crop. Colonel Bill Yocum, a large cotton raiser in Red river bottom, reports his crop ruined by worms. Disastrous reports of cotton conditions in Indian Territory have been received here.

A report reached here that the most disastrous flood ever known devastated Washita Valley, I. T. Thousands of acres of corn and cotton disappeared under water. High water has driven many people from their homes.

WILDLY EXCITED.

Transactions on New York Stock Market of Enormous Proportions.

New York, Aug. 21.—The stock market was wildly excited at the opening Tuesday. Transactions were of enormous volume. The tone at the outset was weak, resulting largely from heavy realizing for profits in a number of issues which recently scored extensive gains. Amalgamated Copper, Aatchison and Pennsylvania fell from 1 to 2 points, but corresponding gains were made by Great Northern preferred and Louisville and Nashville. The only wide opening was in United States Steel, a block of 15,000 shares coming out at a maximum loss of 5-8. United States Steel preferred lost a point. The market turned strong before the end of a half hour, when most of the early losses were recovered.

NO PAY YET.

Texas State Troops Must Wait Two Weeks For Their Stipend.

Austin, Aug. 21.—Texas state troops who participated in the recent encampment will not get their pay for service from the government for two weeks. This announcement was made in the adjutant general's department. Paymaster West of the Texas National guard and corps of assistants are working on the different pay rolls, and will not be ready before that time. There are 2,016 men and officers to be paid and it will take \$35,000. A check on the treasury will be mailed from here to the men and officers. This will be a disappointment to many, who expected to get their money at once.

Forgery Charged.

Fort Worth, Aug. 21.—A man giving his name as B. L. Stone and alleged to have been under three others was charged with forging a check in Justice Royland's court. He waived examination and was remanded to jail in default of \$1,000 bond. The name of W. E. Yost & Co. was signed to a forged check, but the firm is unknown here. Stone has been arrested here twice on forged charges.

Death and Prestations.

Chicago, Aug. 21.—One death and a number of prostrations as the result of heat were reported before noon Tuesday to the police department. The temperature at 9 o'clock, according to official figures, was 85 degrees.

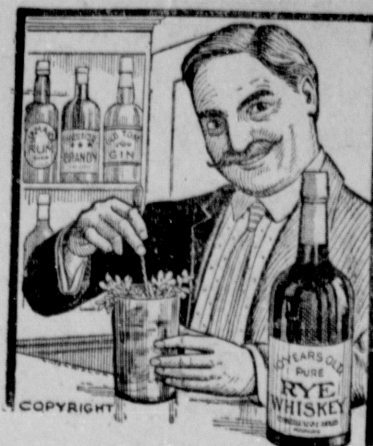

Overcome by Gas.

Pittsburg, Aug. 21.—Fourteen men were overcome by gas at the Eliza furnace of the Jones & Laughlin Steel company at Soho. They were removed to a hospital where three died.
